

Belgin Ögrek

Biodata

Belgin Ögrek has been working as a teacher, trainer, consultant and a manager in education since 1982. She holds a BA in linguistics and a master's degree in Business Administration and certificates in Harvard Project Zero, Educational Leadership, Teaching Young Learners, Brain-Based Learning and many more. She is an internationally certified NLP trainer. She has travelled widely around Turkey giving ELT seminars and NLP training. She is a partner for International Brain Awareness Week and has organised conferences to integrate brain research into foreign language teaching practice.

Abstract

Teaching With The Brain In Mind

Understanding how the brain learns enables language teachers to enhance their effectiveness in the classroom. In this talk, I aim to demonstrate what brain research tells us about learning and how those findings can be applied in the classroom to help students maximise their learning potential and performance.
